A McGraw-Hill Advertising Classic A Technique for Producing Ideas reveals a simple, sensible idea-generation methodology that has stood the test of time. First presented to students in 1939, published in 1965, and now reissued for a new generation of advertising professionals and others looking to jump-start their creative juices, this powerful guide details a five-step process for gathering information, stimulating imagination, and recombining old elements into dramatic new ideas.

This concise and powerful book lifts the lid on the creative process and eloquently details the steps needed to create exciting new ideas. Advertising copywriters, engineers, poets, painters and scientists have all benefited from its text to make creative breakthroughs. Advertising trailblazer William Bernbach wrote, "James Webb Young conveys in his little book something more valuable than the most learned and detailed texts on the subject of advertising. Mr. Young is in the tradition of some of our greatest thinkers when he describes the workings of the creative process". Table of contents How it started The formula of experience The Pareto theory Training the mind Combining old elements Ideas are new combinations The Mental digestive process "Constantly thinking about it" The final stage Some after-thoughts

This is THE classic on creative thinking, written with the clarity, knowledge, and experience of a skilled advertising man. A Technique For Producing Ideas is a step-by-step technique for sparking creativity in advertising or ANY other field...

THIS BOOK has become essential reading for anyone-whether in marketing, advertising, sales, finance, or the pure artist-who is seriously interested in the creative business of generating good ideas. It is a concise, clear, but above all practical book, and all those willing to put forth the mental energy to read, understand, and-most importantly-implement its instructions will be richly rewarded. I hope you'll find this to be an amazing gem and another appropriate inclusion in the thINKing cata-logue. I've read its words and absorbed its teachings many times and finally had the wisdom to implement its lessons.

This book explains principles of the creative process and reliable steps to create exciting new ideas. Advertising copywriters, engineers, poets, painters and scientists have all benefited from its text to make creative breakthroughs. Advertising trailblazer William Bernbach wrote, "James Webb Young conveys in his little book something more valuable than the most learned and detailed texts on the subject of advertising. Mr. Young is in the tradition of some of our greatest thinkers when he describes the workings of the creative process".

A Technique For Producing Ideas: (A Technique For Getting Ideas) This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and

newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional\unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community, therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. We are grateful to our readers for putting their faith in us and accepting our imperfections with regard to preservation of the historical content. HAPPY READING!

A McGraw-Hill Advertising Classic A Technique for Producing Ideas reveals a simple, sensible idea-generation methodology that has stood the test of time. First presented to students in 1939, published in 1965, and now reissued for a new generation of advertising professionals and others looking to jump-start their creative juices, this powerful guide details a five-step process for gathering information, stimulating imagination, and recombining old elements into dramatic new ideas.

A step-by-step technique for sparking breakthrough creativity in advertising--or any field Since its publication in 1965, A Technique for Producing Ideas has helped thousands of advertising copywriters smash through internal barriers to unleash their creativity. Professionals from poets and painters to scientists and engineers have also used the techniques in this concise, powerful book to generate exciting ideas on demand, at any time, on any subject. Now let James Webb Young's unique insights help you look inside yourself to find that big, elusive idea--and once and for all lift the veil of mystery from the creative process. "James Webb Young is in the tradition of some of our greatest thinkers when he describes the workings of the creative process. The results of many years in advertising have proved to him that the key element in communications success is the production of relevant and dramatic ideas. He not only makes this point vividly for us but shows us the road to that goal."
--William Bernbach, Former Chairman and CEO, Doyle Dane Bernbach Inc.

Discusses how to condition the mind to become "idea-prone" and presents a five-step procedure for solving problems and getting ideas
