Business Analyst is, what they do, and how they do it. A breakdown of six project methodologies including traditional Waterfall and Agile frameworks. Learn how to properly initiate a project by creating a business case that aligns with the business objectives.

~~Business Analysis Fundamentals | The BA Guide~~

- business objectives (the measures that prove the vision has been realised) •
- business deliverables (what components will change the measures defined in the objectives) •
- business requirements (what needs the business have that are in scope) •
- business rules (what rules must be enforced as part of the requirements) ...and the valid intersections of these elements. The following diagram formalises this idea:
