Revised edition of the authors's Developmental psychology, 2011.

Why does our memory of our first birthday differ from our memory of our last birthday? What makes children with the same parents have different characters? 'Developmental Psychology' provides a clear and lively coverage of the main topics and concepts required by the British Psychological Society (BPS).

This introductory book is written for first-year students who are taking a module in developmental psychology. It will help them gain an overview of the subject and understand how to prepare for exams and other assessments.

The result of extensive scholarship and consultation with leading scholars, this text introduces students to twenty-four theorists and compares and contrasts their theories on how we develop as individuals. Emphasizing the theories that build upon the developmental tradition established by Rousseau, this text also covers theories in the environmental/learning tradition.

A representative and authoritative 'state of the art' account of human development from conception to adolescence. Written at an easy-to-comprehend level by an international team of respected researchers, conveying their knowledge with enthusiasm and skill. Full supporting materials - chapter overviews, discussion questions, suggestions for further reading, and glossary. Chapters covering applied issues in developmental psychology

Clinical Psychology is for students studying clinical psychology as part of an undergraduate programme in psychology, nursing, sociology or social and behavioural sciences. Undergraduate students who wish to know if postgraduate study in clinical psychology would be of interest to them will find this book particularly useful. The book will inform students about: the profession of clinical psychology how to get onto a clinical psychology postgraduate training programme the way clinical psychologists work with children, adolescents and adults with common psychological problems the main models of practice used by clinical psychologists, and the scientific evidence for the effectiveness of psychological interventions. There is a focus on both clinical case studies and relevant research, and the book includes summaries, revision questions, advice on further reading and a glossary of key terms, all of which make it an excellent student-friendly introduction to an exceptionally interesting subject.

This accessible introduction to developmental psychology examines how children develop, from language development to social learning and the development of emotion. Comprehensive and engaging, it is the ideal introduction for A-level and undergraduate students, and for anyone interested in learning more about development in childhood.

This major new undergraduate textbook provides students with everything they need when studying developmental psychology. Guiding students through the key topics, the book provides both an overview of traditional research and theory as well as an insight into the latest research findings and techniques. Taking a chronological approach, the key milestones from birth to adolescence are highlighted and clear links between changes in behaviour and developments in brain activity are made. Each chapter also highlights both typical and atypical developments, as well as discussing and contrasting the effects of genetic and environmental factors. The book contains a wealth of pedagogical features to help students engage with the material, including: Learning objectives for every chapter Key term definitions Over 100 colour illustrations Chapter summaries Further reading Suggested essay questions. A Student's Guide to Developmental Psychology is supported by a companion website, featuring a range of helpful supplementary resources including exclusive video clips to illustrate key developmental concepts. This book is essential reading for all undergraduate students of developmental psychology. It will also be of interest to those in education, healthcare and other subjects requiring an up-to-date and accessible overview of child development.
