Hello Everyone, I've some ICOM IC-H16 radios, but some of them were missing CH 1 & CH 7. I tried to restore the channels but failed. After that I removed the "Internal Battery" of radio to make the missing channels visible. Now all 16 channels are visible, but I can't program the frequencies. e.g. When I press FUNC + 1 it appears : 90 similarly when I press FUNC + 5 it appears 508.73.
