Home | Lighting By Design

Taking an imaginative and creative look at the potential of creating and using light, Lighting by Design opens a new perspective on outdoor and indoor design. It is designed to make lighting not so much a myth, but an essential part of interior design. It is easy to visualise fabrics from swatches and large samples, but lighting is more complex; we cannot touch or feel it, yet it is all around us and responsible for what we see.

LED lighting makes every one a winner. A well designed low energy LED lighting scheme could save you up to 75% of your current lighting energy costs and pay back in less than half the life of the LEDs. Even if you have energy efficient fluorescent lighting at the moment you could still save up to 65% by changing to LED.
