A groovy New York Times bestseller! From the bestselling Pete the Cat series, it's a groovy pizza party that you don't want to miss! It's a party, a party, a perfect pizza party! That's what Pete thinks as he piles the pie high with his favorite topping—pepperoni. But then his friends come over and add their own toppings to the pizza. Will Pete's perfect pizza be ruined? There's only one way to find out! In this picture book full of fun alliteration and tasty foods by the New York Times bestselling team of Kimberly and James Dean, Pete and the gang learn that the best kind of pizza is one you share with your friends. Don't miss Pete's other adventures, including Pete the Cat: I Love My White Shoes, Pete the Cat: Rocking in My School Shoes, Pete the Cat and His Four Groovy Buttons, Pete the Cat Saves Christmas, Pete the Cat and His Magic Sunglasses, Pete the Cat and the Bedtime Blues, Pete the Cat and the New Guy, Pete the Cat and the Cool Cat Boogie, and Pete the Cat and the Missing Cupcakes.

The IMLEM Plus edition of Hard Math is designed for students participating in both the Intermediate Math League of Eastern Massachusetts and Mathcounts(r). The topics align with modern middle school curricula: fractions, decimals, percents, prime factorization, plane and spatial geometry, probability, statistics, combinatorics, algebra, modular arithmetic, etc. But Hard Math challenges students to develop a deeper understanding: it asks much harder questions than standard texts and teaches the material and problem solving strategies students need to attack them. For example, rather than asking students to write $2/5$ as a decimal, it might ask students to use the fact that $99999 = 9 \times 41 \times 271$ to find the tenth digit in the decimal expansion for $1/271$. (It might ask this, but never actually does.) The organization is designed to serve IMLEM students' needs: the first five chapters cover exactly what students should learn for each of IMLEM's monthly contests. But the text can also serve students preparing for other math contests or as general enrichment. The IMLEM Plus edition of Hard Math can be used interchangeably with the IMLEM edition. The only difference is that the IMLEM Plus edition contains an extra chapter covering topics that do not appear on IMLEM contests, but which the author feels are useful to know if a student wants to do very well on Mathcounts(r). Mathcounts(r) is a registered trademark of the Mathcounts Foundation, which was not involved in the production of, and does not endorse, this book.

Saxon Algebra 2 Homeschool Packet 3rd Edition 32 test forms for homeschooling, and answers to all tests, and student textbook problem sets. Grade Level 9-12

Written for the gifted math student, the new math coach, the teacher in search of problems and materials to challenge exceptional students, or anyone else interested in advanced mathematical problems. Competition Math contains over 700 examples and problems in the areas of Algebra, Counting, Probability, Number Theory, and Geometry. Examples and full solutions present clear concepts and provide helpful tips and tricks. "I wish I had a book like this when I started my competition career." Four-Time National Champion MATHCOUNTS coach Jeff Boyd "This book is full of juicy questions and ideas that will enable the reader to excel in MATHCOUNTS and AMC competitions. I recommend it to any students who aspire to be great problem solvers." Former AHSME Committee Chairman Harold Reiter

The puzzles and problems cover six areas of algebra: presentation, proportional reasoning, balance, variable, function, and inductive reasoning.
