Reading the Forest is a community project in the Forest of Dean. Led by local academics at the University of Gloucestershire with volunteers in the Forest of Dean, it's funded by both the University, and Heritage Lottery Fund, and is part of the Foresters' Forest landscape partnership. The project researches the rich literary heritage of the Forest of Dean, sharing its findings through this website, social media, public events and through working with schools.

Forest Forensics: A Field Guide to Reading the Forested ...

Reading the Forested Landscape is a full and original portrait of New England's forests, tracing their evolution from precolonial days to the present through an examination of the patterns we see today. Landscape is much more than scenery to be observed or even terrain to be traveled, as this fascinating and many-layered book vividly shows us.

Reading the Forested Landscape - The Compleat Naturalist

Reading the Forested Landscape, first of all, plainly deserves readers outside of New England. While the particular forests the book looks at are in the northeast, Tom Wessels' approach and style won't be lost on anyone with an interest in natural history. Give this as a gift to a birding friend, or for someone to keep in their cabin.

Reading The Forested Landscape: A Natural History Of New ...

Based on information presented in "Reading the Forested Landscape, a Natural History of New England". These books are amazing in that they point out information left by previous natural events and humans. If a tree falls and there is no one there to hear it, does it make a noise? Yes, and what it says is so simply explained by Wessels.
