Stormwater Runoff and Receiving Systems: Impact ...

Back-ups in the environment allow the oil and grease to be washed into stormwater runoff systems which eventually lead to our ponds, lakes, creeks and rivers. Only a small amount of oil or grease will contaminate a large body of water. A release of oil and grease into a waterway may result in environmental fines against the base.

Stormwater Runoff And Receiving Systems Impact Monitoring ...

Stormwater, also spelled storm water, is water that originates from rain, including snow and ice melt. Stormwater can soak into the soil, be stored on the land surface in ponds and puddles, evaporate, or contribute to surface runoff. Most runoff is conveyed directly to nearby streams, rivers, or other water bodies without treatment. In natural landscapes, such as forests, soil absorbs much of the stormwater. Plants also reduce stormwater by improving infiltration, intercepting precipitation as i
