context. However if you are in doubt it is better to read through. This book is fluff free so it won't waste your time. Trading Binary Options for Fun and Profit: A Guide for Speculators starts by defining what a binary option is and how it works, the main types of trades available and the criteria you may want to consider when selecting a binary options broker. Then it proceeds to explain why using trading strategies makes sense and where you can find ideas to create or adapt them. Ultimately you will want to know if your trading strategy makes money so it also shows you how to calculate the magic number that tells it all: its Expectancy. Since trading strategies are built upon technical indicators a very brief overview of Technical Analysis follows and some very common indicators are presented. Next explains the MetaTrader platform and shows you how it can serve as your own cost-free research assistant and trading signal provider. It then goes over the details of developing and improving a trading strategy using Excel and Expert Advisors (no programming knowledge needed). Money Management comes next: you will get to know several systems and in the process learn how easy it is to do a Monte Carlo simulation to test them (or to test anything else). The book ends with an overview of the complete methodology and leaves you with some final trading suggestions. Finally, in the Appendixes you will find several resources that are made available for free to the buyers of this book: Six spreadsheets containing templates for the Martingale, Paroli, D'Alembert, Fibonacci, Percentage of Bankroll and Kelly money management systems; Examples of trading strategies that backtested with winning percentages above 60%; An Expert Advisor that pops-out an alert window and plays a sound on MetaTrader each time a new trade is opened.

If you are already making thousands of dollars trading Forex and make a full time extravagant living taking a couple of trades a month, then, please skip this book and go find something else to do. So, on the other side... do you live in a self denial chasing the next best system? STOP... Enough is enough, enough ridicule from your relatives and friends, it's time to show your guts. Face it, think about it, what would you think if you were on the other side looking through the eyes of your family and friends. All you see is a loser, getting ups and downs totally controlled by the next guru they read about. Doode, this gotta stop! Trust me, I know you feel the pain. I can kind of still remember it...kind of hard to do when I am sitting on my yacht in the Caribbean sipping from something that comes with umbrella on top. See, it didn't use to be that way, not too long, couple of years ago... but I will tell you about that later in my letter Ha! Forex trading is not all it is cracked up to be, it is a hard game controlled by robots and banks and foreign sovereign institutions. Keep reading if you know where I am coming from... Things didn't used to be all pink for me either, pain, loss, closed one losing account, opened second one, heard of such and such broker giving a certain deal on lots opened another account, lost all the money, started in the mini, macro, regular lots... Does that sound familiar, try to look from the outside, Forex is for crazy people, crazy winners or crazy losers. Now, if this is your first contact with Forex, I am really sorry you had to hear this small talk. I would rather be the nice guy, rather be the good news bearer, but please, don't kill the messenger, this is the bloody truth in Forex. You may be mad at me at this moment, but soon will come the moment you will thank me . Or you would rather stumble on a nice guru telling you all the lies, and how he can help you open a 10k account with a secret advantage. Or worse... He can even offer to manage your 10k, if you so willingly send him a check for the whole amount. The book you are about to read is the hard learned secrets of the successful traders and brokers and I am putting it all out for you. See I don't really need the 10 bucks, but I am making sure you appreciate the value you are getting. I have made my share trading the market, paid for all the yachts cars and toys and the farm, now it's your turn. I am sick and tired of the pain in the community and all the retail traders like yourself slaughtered by the hefty brokers. It is time to pay back, it is time for me to give back and to make sure the small trader has evened the plates no more secrets and golden grails uncovered. All the knowledge I am presenting in this book, comes from the school of hard knock, expensive paid Forex forums, where real traders hang out, not bothered by the rookies. Things I overheard on the golf course? Tell me about that, one of the guys I used to golf with executed only one trade a month, we used to call him the "ONE TRADE GUY..". How ridiculous that is? Hanging around, playing golf all month until a certain currency goes to a such and such monthly level, and pull the trigger to wipe out all the people with red eyes staring at the screens day and night, fighting with their spouses, wasting their lives in front of the broker platforms. I know what you are thinking...this guy is full of it! Well, I am fed up with the usual story that hits every newbie trader like you and I don't want you to have anything to do with it. So, I am giving you a choice: take this book read it, study and devour every single strategy, because is real, out of the trenches uncompromised, winning truth coming from a real trader. Take the leap of faith, you are a couple mouse clicks away from finding the real freedom and trading like a pro. Take the click of faith! See you on the other side! Trader X
