Trading Fish, Saving Fish
Numerous international legal regimes now seek to address the global depletion of fish stocks, and increasingly their activities overlap. The relevant laws were developed at different times by different groups of states. They are motivated by divergent economic approaches, influenced by disparate non-state actors,

Saving Fish From Drowning was not a novel, but an endurance test. If I didn't have to facilitate a book group about this novel, I would not have read past the first 50 pages. I've heard great things about Amy Tan, and haven't read her other stuff -- and won't discount it based on this -- but lordy, I have no incentive to read her work now.

Michael Ross, the fish trader located at Freeport. The Fisherman, also known as the Fish Vendor is an NPC that can trade out fish that you caught, into tradable crates. In order to obtain crates from this vendor, you must catch the required amount of fish to trade it into a crate. This may take a long process, but is a significant way to get a beyond decent amount of money.

One freshwater store always lets be bring back fish, and they give me full store credit. There is another little store that almost functions as a permanent swap meet. The reef store does not take back anything, no matter what. They do issue refunds if an organism dies, pending water tests, but they will not take back fish or coral.
